### Division of Water Rights

KENT L. JONES  
State Engineer/Division Director

December 15, 2016

Stephen A. Osguthorpe  
1700 White Pine Canyon Road  
Park City, UT 84060

Dear Water User:

The following Snyderville Basin water users submit their Water Use Plans to the Division of Water Rights at the beginning of each year:

Clissold Investment Company  
Glenwild Golf Course  
Gorgoza Mutual Water Company  
High Valley Water Company  
Mountain Regional Water Special Service District  
Osguthorpe  
Park City  
Quarry Mountain Ranches Home Owner Association  
Summit Co. Service Area No. 3  
Summit Water Distribution Company

A Draft 2017 Water Use Plan (Plan) is enclosed and is based only on a preliminary review of the water rights. Following are some examples of items that would require updates:

- Newly approved water rights or change applications
- Lapsing, withdrawn, replaced, or terminated water rights and/or applications
- Changes in number of shares or exchange contracts
- New use of approved point of diversion (PODs), with new measuring devices, and/or new conveyance facilities (ditches, pipelines, etc.)
- New owner of record or other important water right changes.
- Limiting diversions to approved locations/quantities/conditions etc.

Your Plan is an important part of the operation of the Weber River Distribution System operated under the direction of the Utah Division of Water Rights and the Weber River Water Commissioner. Your Plan does not necessarily identify all applicable limitations, but must adhere to all such limitations. These limitations may include quantity, approved Point of Diversion (POD) locations, applicable contracts or agreements, source of supply, type of use, place of use, priority date, ownership, supplemental or sole supply, etc.

Water is measured and reported by the Weber River Water Commissioner and/or Deputy Commissioner. Water users are responsible for maintaining their diversion structures and measuring devices in good condition. Owners of approved Water Right

Subject: 2017 Water Use Plan

“exchange” or “change” contracts are responsible for maintaining the company shares as required under the conditions of approval for the exchange to remain valid.

If a water right or a water contract changes during the year, please amend the plan to reflect the change, and re-submit the changed plan for review/approval.

**Please mail your 2017 Plan to the Utah Division of Water Rights (attn: Ben Anderson) on or before January 12, 2017.**

Thank you for your continued planning efforts each year. If you have questions relating to operation and reporting, please call Dennis Marchant, Deputy Water Commissioner at (435) 783-5648 or Cole Panter, Weber River Water Commissioner, at (801) 791-5529. If you have questions relating to your water rights and specific limits and priority dates of each right, please call Ross Hansen, Regional Engineer, at (801) 538-7240. If you have questions relating to measuring device requirements or your 2017 Plan, please call me at (801) 538-7469.

Sincerely,

A handwritten signature in black ink, appearing to read "Ben Anderson", written in a cursive style.

Ben Anderson, P.E.  
Distribution Engineer  
Field Services
